

Testimonials

MetaHealthZone™ developer Dr. Slupsky has substantial experience in metabolomics. She is a world expert in this area, having pioneered the technique of targeted profiling in NMR-based metabolomics. She is rapidly becoming a leading scientist in this field.

• **Dr. Bruce German**, Professor, Food Science and Technology, University of California

I am very impressed with Dr. Slupsky's work. Early detection of cancer is crucial if we are to achieve the best possible outcome for the patient. The Metabolistics cancer screening test is an exciting, innovative tool for cancer diagnosis.

“ Screening tests
SAVE LIVES ”

- Canadian Cancer Society, 2007

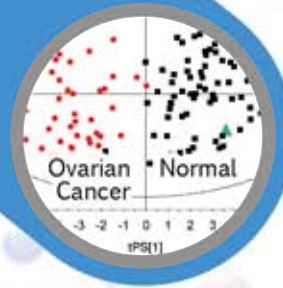

How It Works

1 You order the **MetaHealthZone™** test online at www.metabolistics.com or visit your health care professional to request it.

3 Our laboratory analyzes your urine sample and sends you the results.

2 You provide a urine sample and return it to Metabolistics using the convenient return address package.

4 You discuss your test results with your health care professional.

Why Take The Test

As a cancer survivor, you may be concerned about your family and friends. You want to help them get the best cancer testing available.

Metabolistics Inc. is now offering **MetaHealthZone™**, an accurate and reliable screening test for breast and ovarian cancer. **One in four Canadians is expected to die of cancer** (Canadian Cancer Society 2010). Our mission is to reduce that rate.

Benefits

"Screening tests save lives" (Canadian Cancer Society, 2007). **MetaHealthZone™** allows for early detection, which means less invasive treatment, more options, and a better expected outcome.

Our urine profiling is painless, convenient, and simple. Testing is completely confidential (results are mailed to the person who ordered the test).

If you are worried about your friends and family developing cancer, urge them to try **MetaHealthZone™**. It's easy and it's life-saving!
